

- IMPORTANT -

Organic Certification Application Instructions for New Applicants

Please complete all sections of this application to create your initial Organic System Plan (OSP).

- ☐ Include information for all production planned for 2026.
- ☐ Do your best to complete all questions and tables within the application.

****blank areas will cause delay****

- ☐ This year's forms will be used as a "baseline" for future years.
- ☐ Most items that do not change will not be re-submitted each year.
- ☐ You are responsible for keeping an up-to-date copy of your OSP.
- ☐ **Emails or letters titled "Request for Information" will be sent if additional information is needed, please respond promptly**
- ☐ The certification process typically takes 3-4 months to complete, but rush options for an additional fee are available
- ☐ Your inspector will review seeds and input applications for three years back. Please have this information available for your inspector.

****Please note: A fee may be charged for incomplete OSPs****

If you'd like assistance completing your OSP, please contact an OEFFA Sustainable Agriculture Educator at (614) 421-2022 or e-mail agricultureeducators@oeffa.org.

Please fill out your application in black or blue ink. The OSP is a plan that can be updated at your inspection or by contacting us at any time. Please make a copy for your records before submitting.

Contact us if you have any questions or comments about these forms, the standards, or the certification process. **We are here to help!**

Submit all application materials and payment to:

OEFFA Certification
150 East Wilson Bridge Rd, Suite 230

Operation # (office use only) _____

OEFFA Organic System Plan for Producers NEW APPLICANT

Complete this form if you are requesting organic farm and crop certification. If a question does not apply to your operation, please mark or write "N/A." Attach additional sheets as necessary. First time applicants must complete all pages. You must sign this form.

Farm Plan Information		NOP §205.401; §205.201(a)																														
Legal Business Name	Owner/Operator																															
DBA operation name (if applicable):	Date																															
What is the best way to contact you in writing? (check one): ☐ Mail☐ Email ☐ Email but please mail me my OSP/annual renewal packet																																
Type of operation (produce, CSA, row crop, dairy, etc.)	<u>Check all that apply for your operation and/or anyone responsibly connected to your operation:</u> ☐ Currently certified by other certifier(s) Please list: _____ ☐ Previously certified by OEFFA or other certifier(s) Please list: _____ ☐ New Applicant																															
Do you have a current copy of the NOP standards and have you reviewed the sections that apply to your operation? ☐ Yes ☐ No	<i>If you are new to OEFFA and have been certified by another agency, or if your certification has ever been denied, suspended, or revoked, attach a copy of your last letter from the certifier and other relevant documents and describe how you have addressed any outstanding issues.</i>																															
Have you ever been denied certification or had your certification suspended (including partial suspensions) or revoked? ☐ Yes ☐ No																																
If yes, describe the circumstances:																																
If currently certified, please list gross sales from organic crops from the previous year:																																
CROP SUMMARY Complete the table below for all crops you are requesting for certification this year. Attach additional sheets if more space is needed. Produce growers may write "Mixed vegetables" (if appropriate) <i>provided that a complete seed list is included with the OSP</i> . Pasture and seedlings are considered crops and must be included. Do not list transitional or conventional fields in this section. Crop acreages to be listed on the organic certificate will be pulled from your Field History Sheet. Please ensure that acreage reported in the Field History Sheet is accurate.																																
<table border="1" style="width: 100%; border-collapse: collapse;"><thead><tr style="background-color: #cccccc;"><th style="width: 33%;">CROPS REQUESTED FOR CERTIFICATION</th><th style="width: 33%;">EXPECTED HARVEST DATE(S)</th><th style="width: 33%;">PROJECTED YIELDS</th></tr></thead><tbody><tr><td>EXAMPLES: <i>Corn</i></td><td style="text-align: center;"><i>September</i></td><td style="text-align: center;"><i>150 bu/ac</i></td></tr><tr><td style="text-align: center;"><i>Wheat</i></td><td style="text-align: center;"><i>June</i></td><td style="text-align: center;"><i>60 bu/ac</i></td></tr><tr><td style="text-align: center;"><i>Straw</i></td><td style="text-align: center;"><i>June</i></td><td style="text-align: center;"><i>1 ton/ac</i></td></tr><tr><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td></tr></tbody></table>			CROPS REQUESTED FOR CERTIFICATION	EXPECTED HARVEST DATE(S)	PROJECTED YIELDS	EXAMPLES: <i>Corn</i>	<i>September</i>	<i>150 bu/ac</i>	<i>Wheat</i>	<i>June</i>	<i>60 bu/ac</i>	<i>Straw</i>	<i>June</i>	<i>1 ton/ac</i>

EXAMPLES: <i>Corn</i>	<i>September</i>	<i>150 bu/ac</i>																														
<i>Wheat</i>	<i>June</i>	<i>60 bu/ac</i>																														
<i>Straw</i>	<i>June</i>	<i>1 ton/ac</i>																														
FIELDS for NEW APPLICANTS (fields should be inspected before the first organic crop is harvested; see OEFFA's "Timeline of Certification" policy) Have you managed all new fields for at least 3 years? ☐ Yes ☐ No If no, date you began management _____ Please complete a Prior Land Use Statement (PLUS) which is included with this packet. A PLUS must be signed by the person(s) who managed the field(s) for each of those 3 previous years. Mark all new fields with an "N" in the field status column of your Field History.																																

- Complete one row for EACH field you manage and each covered production structure (e.g. green houses, high tunnels).
- **USE ONE ROW** for each field and one row for each covered production structure.
- **INCLUDE ALL CROPS**, cover crops, pasture, woods, etc.
- **FIELD STATUS:** “N” = New (requested for certification by OEFFA for the first time), “T” = Transitional (will be requested for certification in the next 3 years), or “C” = Conventional (not requested or planned for certification).
- **NEW and TRANSITIONAL FIELDS:** Include the last date a prohibited substance was applied. **Include seed varieties used and inputs used in each year column**
 - Provide a **Prior Land Use Statement** that is signed by the previous manager for any fields that you have not managed for the last 3 years.
 - You must show your records and documentation of seeds and inputs used during your management to your inspector.
- **CURRENT YEAR:** List all inputs used *and* projected for use in the current year. Your complete field activity records will be reviewed at inspection.
- **INPUTS:** List all inputs (i.e. seeds, seedlings, fertilizers, compost, manure, lime/gypsum, mulches, pest control, etc.).
- **ADDITIONAL FIELDS:** Make copies of this sheet or request additional field history forms if more space is needed. An alternate format that includes all the information requested here may also be accepted.
- **CONFIRM CONSISTENCY:** Make sure that the field names/numbers, crops, and acreages on this sheet match what you listed on your map(s).

Page 2

SEEDS

The NOP requires the use of certified organic seeds unless not commercially available. See OEFFA's Seed & Planting Stock Sourcing policy for more information about searching for organic seeds. Synthetic seed treatments are prohibited unless included on the National List. Genetically engineered/modified (GMO) seeds are prohibited in organic production. If using non-organic seed when organic is not commercially available, you must also obtain verification that your seed is untreated and non-GMO.

List all seeds (see reverse for seedlings and annual and perennial planting stock) used or planned for use in the current year (including seed used on transitional fields). Check the appropriate boxes below. Attach additional sheets if more space is needed. **Produce growers may submit seed order sheets or invoices showing complete information instead of completing this table**

Summary of Organic Seed Search (if untreated/non-GMO seeds were used):

PURCHASED SEEDLINGS

Annual seedlings must be certified organic unless they meet the requirements under NOP §205.204(a)(3), (5). See the OEFFA Policies & Procedures book for more information on seedlings.

List all purchased seedlings and check the appropriate boxes below. Attach additional sheets if more space is needed. *If you manage the production of seedlings at another location, all information regarding seedling management must be supplied in the Seedling and Planting Stock Production section and the site must be inspected.*

PURCHASED PLANTING STOCK (e.g. garlic, potatoes, onion sets, sweet potato slips, strawberry plugs, trees, shrubs, etc.)

NOP Standards require the use of certified organic planting stock unless not commercially available. See OEFFA's Seed & Planting Stock Sourcing policy for more information about searching for organic planting stock. Genetically engineered/modified (GMO) planting stock is prohibited in organic production. If using non-organic planting stock when organic is not commercially available, you must also obtain verification that your planting stock was not treated after harvest and that it is non-GMO. Non-organic perennial planting stock can only be marketed as organic after one year of organic management.

List all purchased planting stock and check the appropriate boxes below. Attach additional sheets if more space is needed. **Produce growers may submit planting stock order sheets or invoices showing complete information instead of completing this table.**

Summary of Organic Planting Stock Search (if untreated/non-GMO varieties were used):

International Markets

Please complete this section if you or your buyer(s) plan to export organic products to other countries and/or if you would like international equivalencies listed on your organic certificate. You may attach additional sheets if necessary.

Please list all organic crops you wish to certify for export in the table below:

☐ I directly export crop products

☐ I do not directly export any crop products (my buyer requests equivalency certification)

Crop	Destination (check all that apply)						Field Name(s) or Number(s)
	Canada	Switzerland	Europe	Taiwan	Japan	Other (list)	

Critical Variances – complete sections for the destinations you checked in the table above

CANADA

☐ Not Applicable

Do you use Sodium (Chilean) nitrate to grow organic crops?

☐ No

☐ Yes (list crop(s) and field(s) on which Sodium (Chilean) nitrate is used):

Do you use hydroponic or aeroponic methods to grow organic crops?

☐ No

☐ Yes (list which crops are grown with these methods):

Do you plan to label crops to be exported?

☐ Yes ☐ No

If YES:

Do these labels meet the labeling requirements of the destination country?

☐ Yes ☐ No

Has OEFFA reviewed these labels and approved them specifically for export?

☐ Yes ☐ No (attach color labels for review)

General Information**NOP §205.401**

Physical Farm Address (<i>used for mail unless otherwise specified</i>)			Mailing Address (<i>if different</i>)		
City	State	Zip Code	City	State	Zip Code
County			County		
Phone	Fax		E-mail for primary contact	Email for public listing, if different	
Name(s) of others who can discuss and update this OSP			Farm Manager		
What is the best way to contact you to schedule an inspection?: ☐ Phone/Voicemail ☐ Mail ☐ E-mail In the space below, please provide directions to your farm for the inspector:					
Legal status of your business: ☐ Individual/Sole Proprietorship ☐ Cooperative ☐ Trust or non-profit ☐ Public Entity ☐ Association ☐ Legal Partnership (federal form 1065) ☐ Corporation/LLC ☐ Other (<i>specify</i>)					
Is the operation a single legal entity, are decision making and finance centralized, one complete set of records kept, and all aspects of the operation covered under this OSP? ☐ Yes ☐ No If multiple individuals or locations are to be certified under one certificate describe the situation: ☐ N/A					

Field Status and Location**NOP §205.202****FARM & FIELD LOCATIONS**

Are all fields requested for certification located at the Farm Address above? ☐ Yes ☐ No

Complete the following table for *all* organic and transitional fields. The top line is for your home or main farm location. If you are requesting certification for land not located at the farm address listed above, list each location on an additional line. Attach additional sheets if more space is needed. Include all farms and fields on the map(s) and Field History sheet(s).

FIELD NUMBERS/NAMES (MATCH FARM MAP)	PARCEL ADDRESS/ LEGAL DESCRIPTION	DISTANCE FROM MAIN FARM
	<i>Primary farm address in the General Information section</i>	N/A

Farm Map

Attach or draw in the space below a map/maps of your entire operation including all farms and fields under your management. Each field should be labeled with a name or number that matches your Field History and Farm Plan Information section on page 1. Also include acreage, buildings/facilities, conservation/biodiversity features, storage, livestock housing, buffers, and neighboring land use.

☐ Map Attached

Annual seedlings must be certified organic unless they meet the requirements under NOP §205.204(a)(3), (5). See the OEFFA Policies & Procedures book for more information on seedlings and planting stock. List all purchased seedlings and planting stock on page 3.

☐ Not Applicable (no seedling or planting stock production)

DO YOU GROW ORGANIC SEEDLINGS OR PLANTING STOCK?: (check all that apply)

☐ ON-FARM

☐ OFF-FARM

Please list all covered production on your Field History Sheets.

Where are they grown (i.e. greenhouse, hoophouse, etc.)? _____

If grown in a greenhouse, list the type and size: _____

Please describe the floor in your covered production areas (i.e. soil, landscape fabric, gravel, cement, etc.): _____

Do you raise plants in containers/flats off the ground? ☐ Yes ☐ No

Do you grow crops other than annual seedlings, planting stock, or microgreens to maturity in containers? ☐ Yes ☐ No

Do you plant crops directly in the ground in the greenhouse? ☐ Yes ☐ No

How do you maintain or improve natural resources and soil fertility in your greenhouse? ☐ Recycle/reuse growing media

☐ Microbial inoculation ☐ Add compost or compostable materials ☐ Earthworm use ☐ Cover cropping ☐ Conservation tillage

☐ Mulching ☐ Addition of plant/animal materials ☐ Water conservation ☐ Crop rotation (describe in Crop Management section)

☐ Wastewater and nutrients are retained and reused ☐ Wastewater and nutrients are used on a crop ☐ Purchased fertility inputs ☐

Other (specify): _____

If treated wood is used in your greenhouse, where? _____ Date of treated wood installation: _____

Describe your watering system: _____

How do you prevent diseases and/or insect problems in seedling and planting stock production?

Do you sell any seedlings or planting stock you produce as organic? ☐ Yes ☐ No

NON-ORGANIC GREENHOUSE OPERATIONS

☐ Not Applicable (I do not have conventional greenhouse production)

List varieties produced as both organic and non-organic ("parallel production").

How do you physically separate and identify organic and non-organic growing areas?

How do you label organic and non-organic seedlings/plants?

List all soil mix ingredients, fertility products, foliar sprays, and pest and disease inputs used or planned for use in your NON-ORGANIC greenhouse operation. Attach additional pages as necessary.

NON-ORGANIC INPUTS	PRODUCT NAME	MANUFACTURER AND/OR BRAND NAME	ACTIVE INGREDIENT(S)

How do you prevent commingling of organic and non-organic soil mixes during mixing and storage?

Where do you store inputs used for non-organic production?

How do you prevent contamination of organic seedlings with prohibited materials through ventilation and/or watering systems?

How do you clean seedling containers and equipment?

Wild Crop Collection**NOP §205.207**

If you harvest any wild crops, you must demonstrate compliance with NOP §205.207. Please complete the table and questions below for wild crop certification. See §205.2 for the definition of a wild crop. N/A – No Wild Crops ☐

CROPS HARVESTED	COLLECTION AREA IDENTIFICATION (FIELD NUMBERS, NAME)	ACRES PER COLLECTION AREA	PROJECTED YIELDS	APPROXIMATE DATES OF HARVEST

Have you managed the land used for harvesting wild crops for at least 3 years? ☐ Yes ☐ No

If no, you must submit a statement signed by the previous manager. Contact us or visit our website for a Prior Land Use Statement.

What percentage of the available wild crop(s) do you harvest annually? _____

How are wild-crops harvested? ☐ By hand ☐ Mechanically

Do you transplant any roots or other planting stock into the collection area? ☐ Yes ☐ No

If yes, how do you separate cultivated crops from wild-crops?

☐ Fencing ☐ Posting signs ☐ Use of natural boundaries such as a stream or tree line ☐ Other (specify) _____

Do you process the harvested crop other than rinsing/washing and bagging? ☐ Yes ☐ No

If yes, describe what processing procedures you perform: _____

What methods do you use to ensure management will sustain the wild crop and will not be destructive to the environment?

- ☐ Limiting collection to amount/ area/time ☐ Observation/monitoring of entire area ☐ Allow re-establishment
☐ Notify/coordinate with responsible agencies/organizations and/or other harvesters ☐ Avoid introduction of invasive plants
☐ Avoid soil erosion ☐ Avoid waterway contamination ☐ Minimize disruption of priority species/sensitive habitat
☐ Specialized training for collectors ☐ Other (describe) _____

Describe the natural environment of the harvest area: ☐ Woodland ☐ Marsh/wetland ☐ Prairie/grassland ☐ Other _____

List any endangered, threatened or rare plants/animals that occur in the harvest area: _____

How often do you evaluate your practices to ensure the environment is protected? ☐ monthly ☐ annually ☐ other _____

Rate the effectiveness of your sustainable harvesting practices: ☐ excellent ☐ satisfactory ☐ needs improvement

Mushroom Production

If you grow mushrooms, please complete the questions below. If you harvest wild mushrooms, please complete the Wild Crop Collection section, above. N/A – No Mushroom Production ☐

Mushroom type(s): _____

Production method(s): _____

Total mushroom production area: _____

List the source of spawn for mushroom production: _____

List the substrate and fertility inputs you use: _____

Are spawn and substrate organic? ☐ Yes ☐ No

If using non-organic spawn, describe your attempts to find organic spawn: (attempts must be documented)

If you use logs in mushroom production, please attach a label or information for the plug material you use and all other inputs.

Sugar Bush

If you tap trees to harvest sap, please complete the questions below. Processing sap into syrup requires certification for handling – complete the OSP for Handlers, if applicable. N/A – No Sugar Bush ☐

Describe your collection system (buckets, bags, tubing, etc.) _____

What methods do you use to ensure management will sustain the sugar bush and not be destructive to the environment?

- ☐ Limiting collection to amount/ area/time ☐ Observation/monitoring of entire area ☐ Minimize driving in collection area
☐ Limiting number of taps in each tree ☐ Minimize disruption of priority species/sensitive habitat
☐ Avoid soil erosion ☐ Avoid waterway contamination ☐ Avoid introduction of invasive plants
☐ Other (describe): _____

Include your wild crop collection, mushroom production, and sugar bush areas on your Field History sheet(s) and farm map(s).

The NOP requires active management of soil fertility and crop nutrients as well as prevention of soil erosion and contamination of crops, soil, and water. A "restricted" input refers to an approved material on the National List (NOP §205.601 and 205.602) which has a specific annotation for its use. If you use a "restricted" material, you must provide evidence of how you address the material's annotation. Under NOP 205.201(a)(3), the operator must describe monitoring practices used to verify that the OSP is implemented and effective.

What are your soil types? *(list specific soil type (such as clay, loam, sandy, etc.) or describe soil texture.)*

What are your soil nutrient deficiencies? ☐ No deficiencies

How do you monitor the effectiveness of your fertility management program? *(Attach copies of most recent test results)*

☐ soil testing ☐ microbiological testing ☐ tissue testing ☐ observation of soil ☐ observation of crop health

☐ comparison of crop yields ☐ crop quality testing ☐ other *(specify)*

How often do you conduct fertility monitoring? ☐ weekly ☐ monthly ☐ annually ☐ as needed ☐ other *(specify)*

Rate the effectiveness of your fertility management program: ☐ excellent ☐ satisfactory ☐ needs improvement

What changes do you anticipate (if any)?:

What are the major components of your soil and crop fertility plan?

- ☐ crop rotation ☐ green manure plowdown/cover crops ☐ interplanting ☐ incorporation of crop residues ☐ subsoiling
☐ summer fallow ☐ compost ☐ on-farm manure ☐ alternate shallow/deep-rooted or light/heavy-feeding crops
☐ foliar fertilizers ☐ biodynamic preparations ☐ soil inoculants ☐ off-farm manure ☐ soil amendments ☐ side dressing
☐ other *(specify)*

Do you use any of the following restricted fertility inputs? ☐ None Used

- ☐ fertilizers with high salt content such as sodium (Chilean) nitrate or potassium chloride (prevention of salt buildup)
☐ synthetic micronutrients (documented deficiency)

If yes, how do you comply with the restrictions (shown in parentheses)?

Do you use?: ☐ Bulk Lime ☐ Bulk Gypsum *(check all that apply)* ☐ No bulk lime or gypsum used or planned

If yes, do you have documentation of their source and any processing they have undergone? ☐ Yes ☐ No

Do you burn crop residues? ☐ Yes ☐ No

If yes, please describe what materials are burned and why:

Do you apply municipal leaf litter, clippings, or other municipal compost materials to fields? ☐ Yes ☐ No

If yes, have you verified that these materials do not contain prohibited substances (such as sewage sludge)? ☐ Yes ☐ No

A. COMPOST USE. *NOP §205.203(c)(2) defines requirements for the composting process.*☐ No Compost

List all compost feedstocks, ingredients, and additives:

What composting method do you use? ☐ in-vessel ☐ static aerated pile ☐ windrows ☐ other (specify)What is your initial Carbon to Nitrogen ratio (C:N)? _____Do you monitor temperature? ☐ Yes ☐ NoIf using a windrow (turned pile) system, do you maintain the composting materials at a temperature of 131 to 170 °F for 15 days and turn the pile at least five times during that 15-day period? ☐ Yes ☐ No ☐ N/AIf using an in-vessel or static aerated pile system, do you maintain the composting materials at a temperature of 131 to 170 °F for 3 days? ☐ Yes ☐ No ☐ N/ADo you produce or use any vermicompost (worm castings) or compost extracts ("teas")? ☐ Yes ☐ NoDo you maintain a compost production record? ☐ Yes ☐ No**B. MANURE USE.** *NOP § 205.203(c)(1) restricts the use of raw manure.*What forms of manure do you use? ☐ none ☐ liquid ☐ semi-solid ☐ piled ☐ fully composted ☐ dried
☐ other (specify)

What type of crops do you grow (check all that apply)?

☐ crops not used for human consumption☐ crops for human consumption whose edible portion has direct contact with the soil☐ crops for human consumption whose edible portion does not have direct contact with the soilIf you grow crops for human consumption and use raw manure, is manure applied at least 120 days before harvest for crops whose edible portion has direct contact with the soil surface or soil particles and at least 90 days before harvest for crops without soil contact? ☐ Yes ☐ No ☐ N/A*Have manure application and harvest dates available for your inspector.*What is the source of the manure you use? (check all that apply) ☐ On-farm ☐ Off-farm

If you use on-farm manure, list manure additives:

List all sources of off-farm manure:

Do you verify that prohibited contaminants and additives (e.g. odor and fly control substances or prohibited lime/gypsum products) are not added to manure from conventional operations once manure has been removed from the animal area?

List or attach information about additives to conventional manure.☐ Yes ☐ No

Describe manure storage, end use, and/or sale:

How do you prevent runoff of manure and contaminated waters to surface water and neighboring properties?

NOP rules require that production practices maintain or improve the natural resources of the operation, including soil and water quality. Practices must minimize erosion. This section applies to all operations.

A. SOIL

What conservation practices do you use?

- | | | | | |
|--|---|--|---|-------------------------------------|
| ☐ terraces | ☐ contour farming | ☐ strip cropping | ☐ under-sowing/interplanting | ☐ firebreaks |
| ☐ winter cover crops | ☐ conservation tillage | ☐ permanent vegetated waterways | ☐ windbreaks | ☐ tree lines |
| ☐ retention ponds | ☐ riparian management | ☐ long term sod | ☐ allow non-invasive plants in fencerows/ditches | |
| ☐ avoid steep slopes and Highly Erodible Land | | ☐ other (specify) | | |

What soil erosion problems do you have (why and in which fields)? ☐ No Erosion Problems

Describe your efforts to minimize soil erosion problems listed above, if applicable.

B. BIODIVERSITY

What steps do you take to provide wildlife habitat and conserve biodiversity?

- | | | | |
|--|---|---|--|
| ☐ invasive species monitoring/removal | ☐ provide habitat for pollinators/native species | ☐ install bird/bat/bee boxes | ☐ hedgerows |
| ☐ maintaining wetlands/prairies/woods | ☐ avoiding nests/not mowing during breeding season | ☐ establish legal conservation areas | |
| ☐ ponds | ☐ uncultivated areas | ☐ riparian management | ☐ other (specify) _____ |

Describe how you monitor the effectiveness of your natural resources conservation program.

- ☐ soil testing ☐ visual observation ☐ species counts ☐ other (specify)

How often do you conduct conservation and biodiversity monitoring?

- ☐ weekly ☐ monthly ☐ annually ☐ as needed ☐ other (specify)

C. WATER USE: (check all that apply) ☐ none ☐ irrigation ☐ livestock ☐ foliar sprays ☐ washing crops
☐ greenhouse ☐ other (specify)

Source(s) of water: _____
 (on-site well, river, creek, pond, spring, municipal, irrigation district, etc.)

Type of irrigation system: ☐ none ☐ drip ☐ flood ☐ center pivot ☐ other (specify)

How do you conserve water?

- | | | |
|--|--|---|
| ☐ scheduled use of water for conservation | ☐ tensiometer/monitoring | ☐ plant regionally appropriate crops/varieties |
| ☐ drip irrigation/micro-spray | ☐ encourage infiltration in fields and pastures | ☐ other (specify) |

What input products are applied through the irrigation system? ☐ None

What products do you use to clean irrigation lines & nozzles? ☐ None

Is the system shared with another operator? ☐ Yes ☐ No

If yes, what measures are taken to prevent contamination of your organic crops? _____

D. WATER QUALITY (Complete this section even if you do not have a pond or waterway on your farm.)

What practices are used to protect water quality?

- | | | |
|--|--|---|
| ☐ fencing livestock from waterways | ☐ leave riparian buffer beside crops | ☐ calculate nutrient budgets |
| ☐ prevent nutrient leaching from over-irrigation | ☐ manage fertilizers/composts to avoid waterway contamination | |
| ☐ increase organic matter for better infiltration | ☐ land forming | ☐ other (specify) |

Describe the location and type of any water contamination problems you have and explain the cause. ☐ None

Describe your efforts to minimize water contamination problems listed above.

Describe how you monitor the effectiveness of your water quality program (water testing, visual observation, etc.).

How often do you conduct water quality monitoring?

- ☐ weekly ☐ monthly ☐ annually ☐ as needed ☐ other (specify)

Crop Management**NOP §205.205, §205.206**

NOP rules require crop management practices that address soil organic matter and plant nutrients as well as weed, pest, and disease problems. Crop rotation is required. See the National List §205.601 for allowed synthetic substances when management practices are not enough to prevent or control weed, pest, and disease problems.

A. CROP ROTATION PLANS (use one line for each rotation used):

CROP ROTATION PLAN & TIMEFRAME	FIELD NUMBERS/NAMES WHERE PLAN IS FOLLOWED
Example: Corn ► Cover Crop ► Soybeans ► Small Grain ► Hay (2 years)	Smith Farm, Fields 1-5

How do you monitor the maintenance or improvement of soil organic matter? (soil testing, visual observation, etc.)

For perennial cropping systems, how do you introduce biological diversity into your operation?

☐ alley cropping ☐ intercropping ☐ hedgerows ☐ other (specify)

B. WEED, PEST, & DISEASE MANAGEMENT PLANS

Please list your problem weeds:

☐ No weed problems

What weed control methods do you use? (check all that apply)

☐ crop rotation ☐ field preparation ☐ delayed seeding ☐ mowing ☐ livestock grazing ☐ approved herbicides
☐ use of fast emerging varieties ☐ mechanical cultivation ☐ hand weeding ☐ flame weeding ☐ smother crops
☐ mulching ☐ other (specify)

List the type(s) of mulch you use (including plastic): _____ ☐ None

If you use mulch films, are they non-biodegradable? ☐ Yes ☐ No ☐ N/A

If you use plastic or other synthetic mulch, is it removed at the end of the growing or harvest season? ☐ Yes ☐ No ☐ N/A

If you use newspaper or other recycled paper for mulch, do you use paper with glossy or colored inks? ☐ Yes ☐ No ☐ N/A

What are your problem pests?

☐ No pest problems

☐ rodents ☐ gophers ☐ birds ☐ other animals (list)
☐ insects (list):

What strategies do you use to control pest damage to crops?

☐ crop rotation ☐ selection of plant species/varieties ☐ timing of planting ☐ companion planting ☐ trap crops
☐ lures/traps/repellants ☐ habitat for natural enemies ☐ physical barriers ☐ release of predators/parasites
☐ Integrated Pest Management (IPM) ☐ use of allowed/restricted products ☐ physical removal
☐ Other (specify)

What are your problem crop diseases?

☐ No disease problems

What disease prevention strategies do you use?

☐ crop rotation ☐ field sanitation ☐ selection of plant species/varieties ☐ timing of planting/cultivating
☐ plant spacing ☐ vector management ☐ soil balancing ☐ compost/tea ☐ use of approved/restricted materials
☐ other (specify)

C. MONITORING FOR PEST, WEED, & DISEASE MANAGEMENT:

How do you monitor the effectiveness of your pest, weed, & disease management program?

☐ testing ☐ visual observation ☐ comparison of crop yields ☐ pest/weed counts ☐ work with a consultant or advisor
☐ physical examination of crops/pests ☐ other (specify)

How often do you conduct pest, weed, & disease monitoring? ☐ daily ☐ weekly ☐ monthly ☐ annually ☐ as needed

How effective is your pest, weed, & disease management program: ☐ excellent ☐ satisfactory ☐ needs improvement

What changes do you anticipate (if any)?

NEIGHBORING LAND USE AND BUFFERS:

The NOP requires that organic production areas have distinct boundaries and buffer zones to prevent the unintended application of prohibited substances or contact with prohibited substances that are applied to neighboring land not under organic management. Crops within required buffer zones are not eligible for organic certification. Indicate buffer zones and neighboring land use on your field maps. Current written agreements (such as adjoining land use statements) with neighboring land managers may be accepted in place of buffers.

In the table below, list specific buffer areas you maintain:

☐ Not applicable (I do not maintain any buffer areas) - Explain: _____

LOCATION/FIELD NUMBERS	TYPE OF BUFFER (crop land, treeline, hedgerow, wildlife planting, grass strip, etc.)	WIDTH OF BUFFER	ADJOINING LAND USE (crop land, pasture, lawn, etc.)	IF CROP IS HARVESTED FROM BUFFER, DESCRIBE END USE (SALE, NON-ORGANIC LIVESTOCK FEED, SEED, ETC.)

If crops are harvested from the buffer zones with equipment used for harvesting organic crops, how do you protect organic crops from contact with buffer crops?

What other practices do you use to prevent accidental contamination?

☐ None

Do you provide written notification of organic status to the following?

☐ N/A

- ☐ highway departments ☐ electric companies ☐ aerial spray companies/airports ☐ adjoining landowners
☐ drainage commissions ☐ farm service office ☐ other (specify): _____

Is your farm mapped with a sensitive-crop spray prevention program (such as Drift Watch)?

☐ Yes (List program: _____) ☐ No

Describe other features of your farm that may impact organic integrity (i.e. energy infrastructure, etc.):

☐ None

Have you posted signs along roadsides that adjoin organic fields? ☐ Yes ☐ No

Do any fields or portions of fields flood frequently (more than once every ten years)? ☐ Yes ☐ No

If yes, list field numbers: _____

Are there any organic fields where there is a risk of contaminated overland flow? ☐ Yes ☐ No

If yes, describe how you divert this water: _____

Do you have a plan to minimize the risk of pollen drift from GMO crops? ☐ Yes ☐ No ☐ N/A (no GMO sensitive crops)

If yes, describe: _____

Have your crops ever tested positive for GMOs? ☐ Yes ☐ No

If yes, explain: _____

How do you monitor for crop contamination?

- ☐ visual observation ☐ residue analysis ☐ GMO testing ☐ photographs ☐ wind direction/speed data
☐ other (specify) _____

How often do you conduct crop contamination monitoring?

☐ weekly ☐ monthly ☐ annually ☐ as needed ☐ other (specify): _____

Conventional Production**NOP §205.272**

If you grow conventional crops or manage farmland that is not certified organic and not in transition, complete this section. Also include information on conventional fields in the Field Status and Location section, equipment used with conventional crops in the Equipment section, and storage for conventional crops in the Storage section. If conventional fields are at the same location and/or adjacent to organic fields, Field History and Farm Maps must also be included for conventional fields.

If you have conventional and organic greenhouse production, complete the “non-organic greenhouse operations” portion of the Seedling and Planting Stock Production section. ☐ Not applicable (I do not have conventional production)

CONVENTIONAL FIELDS OR FARM NAME	PARCEL ADDRESS/ LEGAL DESCRIPTION	TOTAL NUMBER OF CONVENTIONAL ACRES	OWN	RENT	DISTANCE FROM MAIN FARM
			☐	☐	
			☐	☐	
			☐	☐	
			☐	☐	
			☐	☐	

Do you grow any of the same crops organically and conventionally (“parallel production”)? ☐ Yes ☐ No

If yes, list:

Are conventional crops and organic crops grown on the same farm or site? ☐ Yes ☐ No

If yes, include conventional fields on your Field History Sheet.

Conventional Crops:

SPECIFIC CROPS/ VARIETIES	GMO	TOTAL ACREAGE	PLANNED USE OF CROP (SALE, SEED, NON-ORGANIC LIVESTOCK FEED, ETC.)
	☐		
	☐		
	☐		
	☐		
	☐		

Fertilizers/herbicides/pesticides/soil amendments used on conventional crops:

PRODUCT NAME	WHO APPLIES? SELF (S) OR CUSTOM (C)	STORAGE	
		ON-FARM	OFF-FARM

Which of the following records do you keep for conventional production?

☐ Not applicable

☐ field maps

☐ labor records

☐ other (specify) _____

☐ field history sheets

☐ storage records

☐ other (specify) _____

☐ input records

☐ sales records

☐ other (specify) _____

☐ harvest records

☐ shipping records

☐ None

Equipment	NOP \$205.272
------------------	----------------------

Equipment	NOP \$205.272
------------------	----------------------

In the table below, list all equipment used for planting, tillage, cultivation, spraying, harvesting, etc.

[illegible]

If you use a sprayer: ☐ No Sprayer

What type?

Did you purchase it new or used?

If used, how was it cleaned prior to use with organic crops? Include all cleaning products used in your description.

Other equipment: Could any equipment you use have been contaminated by previous uses? ☐ Yes ☐ No

If yes, describe:

If you use a sprayer: ☐ No Sprayer

What type?

Did you purchase it new or used?

If used, how was it cleaned prior to use with organic crops? Include all cleaning products used in your description.

Other equipment: Could any equipment you use have been contaminated by previous uses? ☐ Yes ☐ No

If yes, describe:

If you use a sprayer: ☐ No Sprayer

What type?

Did you purchase it new or used?

If used, how was it cleaned prior to use with organic crops? Include all cleaning products used in your description.

Other equipment: Could any equipment you use have been contaminated by previous uses? ☐ Yes ☐ No

If yes, describe:

If you use a sprayer: ☐ No Sprayer

What type?

Did you purchase it new or used?

If used, how was it cleaned prior to use with organic crops? Include all cleaning products used in your description.

Other equipment: Could any equipment you use have been contaminated by previous uses? ☐ Yes ☐ No

If yes, describe:

If you use a sprayer: ☐ No Sprayer

What type?

Did you purchase it new or used?

If used, how was it cleaned prior to use with organic crops? Include all cleaning products used in your description.

Other equipment: Could any equipment you use have been contaminated by previous uses? ☐ Yes ☐ No

If yes, describe:

If you use a sprayer: ☐ No Sprayer

What type?

Did you purchase it new or used?

If used, how was it cleaned prior to use with organic crops? Include all cleaning products used in your description.

Other equipment: Could any equipment you use have been contaminated by previous uses? ☐ Yes ☐ No

If yes, describe:

NOP §205.272(b)(1) and (2) require that containers, bins, and packaging materials must not contain synthetic fungicides, preservatives, or fumigants. All reusable containers must be cleaned before use and pose no risk of contamination.

How are your organic crops harvested? (check all that apply) ☐ mechanical ☐ by hand ☐ custom

If custom, provide name and contact information for the harvester:

What types of containers are used for harvesting?

☐ gravity wagons/boxes ☐ hay wagons ☐ truck boxes ☐ cardboard/waxed boxes ☐ wooden tote ☐ plastic containers
☐ other (specify)

Are containers new or used? ☐ new ☐ used

If used, what did they contain prior to organic use? _____

Are the containers used for organic crops only? ☐ Yes ☐ No

Describe any potential contamination or commingling problems you may encounter harvesting organic crops: ☐ None

Describe steps taken, including equipment cleaning, to protect organic crops from commingling and contamination during harvest:

Describe any materials used for binding organic crops or baling/wrapping hay, silage, haylage, straw, etc.:

Are these baling/wrapping/binding products free of prohibited substances? ☐ yes ☐ no

Are these baling/wrapping/binding products removed before processing/chopping? ☐ yes ☐ no

Operators must store organic crops in ways that prevent commingling and contamination.

Describe your storage locations in the table below:

STORAGE ID#	TYPE OF CROPS STORED	TYPE OF STORAGE	CAPACITY	ORGANIC (O), TRANSITIONAL (T), BUFFER (B), CONVENTIONAL (C)

If there is off-site storage, list the storage ID and give address and distance from main farm:

How do you prevent/control insect pests and rodents in crop storage areas? ☐ No problems

List all product names and manufacturers for pest control inputs used in storage areas in your Inputs list -- attach labels if not pre-approved by OEFFA.

Do you use the same storage areas for organic, transitional, buffer, and/or conventional crops? ☐ Yes ☐ No

If yes, describe how you segregate organic crops from non-organic crops:

How do you clean storage units before storage of organic crops?

If transitional, buffer and/or conventional crops are stored on your operation in addition to organic crops, please complete the following: ☐ Not applicable – no storage or only organic crops are stored

Are the storage areas labeled with a unique name and the organic/conventional/transitional status of the crop contained?

Please draw below or attach an example of storage labeling.

☐ Yes ☐ No

Does this storage name link to your records? (i.e. harvest records, storage records, sale/purchase records)

☐ Yes ☐ No

Draw example of storage identification here (if photo is not provided):

NOP §205.201(a)(5) requires handling procedures that do not mix organic with non-organic crops or prohibited materials.

Complete this section if you do any post-harvest handling. Some handling/processing will require completion of an OSP for Handlers. See the policy titled "Handling Certification for Producers." Contact OEFFA for more information or to request this form.

Describe your post-harvest handling/processing procedures and equipment:

(Examples: threshing, shelling, seed cleaning, drying, grinding, rinsing, washing, bagging, mixing, roasting, pressing, etc.)

Where is handling/processing (indicated above) conducted?: ☐ on-farm ☐ off-farm

If off-farm, provide location:

Who does the handling/processing? (check all that apply): ☐ self (the producer) ☐ custom operator ☐ commercial handler

☐ other (describe)

If custom, provide name and contact information for the custom handler/processor:

Handled/processed products end use (check all that apply): ☐ used on-farm ☐ used off-farm ☐ sold ☐ other (describe)

Is the handling/processing area and equipment used for both organic and non-organic products? ☐ Yes ☐ No

If yes, describe steps taken to prevent commingling and contamination:

Packaging Material(s): _____

Does packaging present any contamination potential for your organic products? ☐ Yes ☐ No

If yes, describe:

Please list any additional inputs used on or with handled/processed products (i.e. wax coatings, sanitizers, etc):

Waste Management**NOP §205.200**

Will any waste products be generated from your farming activities (*such as plastic/net wrap, plate cooler water, left-over chemicals, used oil, feed/tote bags, used containers, drip tape, plastic mulch, row cover, etc.*)? ☐ yes ☐ no

If yes, describe the waste materials:

Check all aspects of your waste management system that apply: ☐ on-site dumpster ☐ material recycling
☐ water recycling ☐ water filtering ☐ composting ☐ routine pickup of waste ☐ sediment ponds/lagoons
☐ constructed wetlands ☐ field application of waste (*describe waste*): _____
☐ cleaning for re-use (*describe cleaning methods*): _____
☐ other (*describe*): _____

Transportation**NOP §205.272**

Complete this section if you transport organic products.

Who is responsible for arranging transportation of your organic products?:

☐ self ☐ buyer ☐ other (*specify*): _____

Describe how your organic products are transported:

Are the transport units (containers, trailers, totes, bags, wagons) labeled with a unique name/identification and organic status?

☐ yes ☐ no ☐ buyer owns/hires the transport units and manages labeling

***If yes, draw/describe labeling here or attach an example:**

Do transport unit names link to your records? (i.e. harvest records, storage records, sale/purchase records) ☐ Yes ☐ No

Does audit trail documentation associated with non-retail containers, such as bills of lading or sale/purchase records, list the last certified entity? (*The last certified entity is you, or your buyer if they are certified and supply you with labels.*) ☐ yes ☐ no

What potential contamination or commingling problems do you have with the transport of organic crops? ☐ None

What steps are taken to protect the integrity of organic products during transport?

☐ dedicated organic only ☐ inspecting transport units prior to loading ☐ cleaning transport units prior to loading
☐ use of Clean Transport Statements ☐ letter/contract with transport company stating organic requirements
☐ other (*specify*): _____

Type(s) of marketing used for your organic product(s):

☐ farmers market ☐ direct to retail ☐ CSA/subscription service ☐ wholesale ☐ on-farm retail
☐ bulk commodities to processor ☐ contract to buyer ☐ on-farm use only ☐ other (*specify*):

Products are packaged for (*check all that apply*): ☐ retail ☐ wholesale ☐ no packaged products

RETAIL LABELS (if applicable):

Do you use or plan to use retail labels on your products? ☐ Yes ☐ No (*If yes, attach full color copies of all labels you use.*)

If yes, do your labels include the phrase “Certified Organic by OEFFA” or a similar phrase directly below your business contact information? ☐ Yes ☐ No

WHOLESALE LABELS (if applicable):

Do you use or plan to use wholesale labels on your products? ☐ Yes ☐ No (*If yes, attach full color copies of all labels you use.*)

If yes:

Do wholesale labels display a lot number, shipping ID, or other unique information that links to handling records? ☐ yes ☐ no

Do wholesale labels display organic status of product? ☐ yes ☐ no

List all other marketing materials and methods used (i.e. websites, brochures, signs, market displays) and provide photos/copies as applicable:

The use of the OEFFA and/or USDA logo(s) is voluntary and both are available from OEFFA in electronic & print form. The use of either seal must be according to NOP regulations and must be pre-approved by OEFFA.

The NOP requires all operations to implement a fraud prevention plan appropriate to the certified operation's activities, scope, and complexity. Your fraud protection plan must describe your operation's monitoring practices and procedures for preventing fraud and describe your verification process for suppliers, including how organic status documentation is maintained back to the last certified entity in the supply chain. Attach supplemental description of any procedures not captured in this section, as applicable.

Operation Overview

Please check all that apply to your operation:

- ☐ only produces organic product ☐ split production (produces conventional product, but different type(s) than organic)
- ☐ parallel production (produces the same type(s) of organic and conventional products) ☐ exports organic product
- ☐ purchases organic products (such as seeds or mushroom substrate) from uncertified vendors ☐ imports organic product

Assessing your Operation for Fraud Exposure and Opportunity

How do you evaluate vulnerability and opportunities for fraud in your supply chain?

- ☐ conduct supply chain audits ☐ assess suppliers (relationship or type of documentation provided)
- ☐ product assessment (geographic origin, demand/supply, available compliance documentation)
- ☐ self-assessment (previous issues, additional certifications, internal guidelines, if no suppliers are used)
- ☐ other: _____

Describe measures used to reduce exposure to fraud and minimize risks:

- ☐ additional scrutiny for high-risk commodities ☐ employee training ☐ only use products produced on farm (no suppliers)
- ☐ verifying organic status prior to purchase (such as checking the organic integrity database) ☐ SOP for importing
- ☐ requiring organic compliance documentation at point of purchase (organic certificate, bill of lading, invoice, seed tags)
- ☐ inspecting physical products received to ensure they were the products ordered before use (such as seed or compliant version of inputs)
- ☐ other: _____

What is your process for reporting suspected organic fraud to OEFFA and the NOP? (even if you have not had to do this, please provide your plan should you come across suspected fraud in the future)

- ☐ Report to OEFFA for guidance ☐ Contact NOP ☐ other: _____

Please review the *Maintenance of Organic Integrity* section of your OSP. Does this address points where organic fraud or loss of organic status are most likely to occur?

- ☐ yes ☐ no (If no, please explain: _____)

Supplier Verification

Do you verify organic compliance at the point of purchase for all organic products?

- ☐ yes ☐ no (If no, please explain: _____)

Who is responsible for supplier verification at your operation? _____

Please check all applicable supplier types you use:

- ☐ distributor ☐ manufacturer ☐ farm ☐ importer ☐ customs or logistics broker ☐ broker (all others)
- ☐ other (describe: _____)

Please list any additional steps you take to verify suppliers (if any): ☐ none

Is your fraud prevention plan effective? ☐ yes ☐ no

Describe monitoring practices and verification tools used to assess the effectiveness of your Fraud Prevention Plan:

☐ internal audits ☐ record monitoring ☐ product testing ☐ do not purchase organic products

☐ other: _____

For products sourced through uncertified entities (including uncertified seed dealers), please check all documents you retain: ☐ N/A

☐ import documentation (see above) ☐ invoices ☐ product labels ☐ organic certificates

☐ transportation documents ☐ packing list ☐ exempt operation statement

☐ other (describe: _____)

Do these documents trace back to the previous certified entity in the supply chain? ☐ yes ☐ no

For imported products, please check all documents that you retain: ☐ N/A (no imports)

☐ NOP import certificates ☐ phytosanitary certificates ☐ transaction certificates ☐ emergency action notices

☐ custom and border protection documents ☐ bill of lading ☐ import permit

☐ other (describe: _____)

What is your plan if something was treated at the border or in transit?

How do you ensure that you accept only the amount of imported product authorized on import certificates?

NOP standards require that records disclose all activities and transactions of the operation and demonstrate compliance with the NOP regulations. Records must be kept for at least 5 years after their creation. All records must be accessible to the inspector, OEFFA, and the NOP.

Do you keep, or plan to keep, all records for at least 5 years? ☐ Yes ☐ No

Which of the following records do you keep for organic production?

- ☐ field activity records (preparation, planting, input application, etc.)
- ☐ input records for soil amendments, seeds, manure, foliar sprays and pest control products (keep all labels and receipts)
- ☐ documentation of attempts to source organic seeds and/or planting stock
- ☐ documentation of organic seedlings
- ☐ residue analyses of inputs (i.e. manure sourced off-farm)
- ☐ compost production records
- ☐ monitoring records (soil tests, tissue tests, water tests, quality tests, observations)
- ☐ equipment cleaning records
- ☐ harvest records that show field numbers, date of harvest, and harvest amounts (including custom harvest records)
- ☐ labor records
- ☐ storage records that show storage location, storage identification, field numbers, amounts stored, and cleaning activities
- ☐ clean transport records
- ☐ sales records (purchase order, contract, invoice, cash receipts, cash receipt journal, sales journal, etc.)
- ☐ shipping records (scale ticket, dump station ticket, bill of lading)
- ☐ transaction certificates
- ☐ audit control summary
- ☐ other (specify): _____
- ☐ other (specify): _____
- ☐ other (specify): _____
- ☐ other (specify): _____

Do you use a lot numbering system for organic products: ☐ Yes ☐ No

If yes, describe:

Please have all records available for your inspector to review.

Affirmation**NOP §205.400; §205.403(a)(1-2); §205.662(g)(1-2)**

I affirm that all statements made in this application are true and correct to the best of my knowledge. I agree to comply with the Act and applicable organic production and handling regulations of this part (Section 7, Part 205 – National Organic Program). I also agree to abide by OEFFA Certification Policies & Procedures. I will submit my Organic System Plan Update annually with applicable fees and supply all additional information requested within the required timeframe. I will notify OEFFA Certification in writing if any of the information pertaining to my organic operation changes. I understand that my operation may be subject to unannounced inspection and/or sampling for residues at any time, as deemed appropriate by OEFFA Certification and as required by the National Organic Program, to determine continued compliance with the Act. I understand that OEFFA Certification may share information concerning the certification of my operation with the USDA National Organic Program and/or other USDA Accredited Certifying Agents, as necessary. I will maintain all records applicable to my organic operation for at least 5 years beyond their creation and allow OEFFA Certification and the USDA National Organic Program access to these records during normal business hours. I have reviewed the information pertaining to Violations of the Act at §205.662(g)(1)-(2). I will defend, indemnify and hold harmless OEFFA Certification, its Trustees, and personnel, from any and all claims, injuries, damages, losses or suits including attorney fees, arising out of or in connection with the performance of certification services, except for injuries and damages caused by the sole negligence of OEFFA Certification. I understand that acceptance of an Organic System Plan in no way implies granting of certification by OEFFA Certification.

Signature of Operator _____ Date _____
(must be signed by hand, not typed)

Printed Name _____

Mailing Information

I have attached the following additional documents (if applicable):

If sending hard copies of additional documents, please send single sided

Prior Land Use Statement

Today's date: _____ Name of OEFFA applicant/operation: _____

Date OEFFA operation began management: _____ Total acres requested: _____

Address(es) and names/numbers of the fields requested:

The location and field information must match the farm map and the Field History Sheet or New Field Plan

The following is to be completed by the prior land manager for the portion of the prior three years under their management. Blank areas are not permitted and the form will be returned for completion.

I verify the following is true and correct to the best of my knowledge:

- 1.) I had control of the land beginning on (date) _____ and gave/will give control to next land manager on (date) _____
- a. If the land is currently certified: (certifier: _____ dates certified: _____ to _____)

- 2.) I understand that the applicant is seeking organic certification for this land and that this is a legal document.

- 3.) During the time I managed the land (during above dates), prohibited materials such as (but not limited to) synthetic fertilizers, pesticides and herbicides, hydrated lime, urea, recycled gypsum, treated seed, etc. were applied?
- ☐ no, they were not applied ☐ yes, they were applied (complete back) ☐ not sure (complete back)

If alfalfa was planted during or after 2011 (or other GMO sensitive perennial crop), is this crop still in production?

☐ no ☐ yes, I have provided non-GMO documentation

Name of prior manager: _____

Address of prior manager: _____

Phone number of prior manager: _____

Signature of prior manager: _____

You may only sign for years under your management. If you only managed some of the prior three years, only provide information regarding the time under your direct management.

OEFFA Certification
